SPORTING...  
...BREVITIES

Young Teddy Roosevelt is finding the foot ball rushes at Harvard sufficiently strenuous to make him glad he is the son of his father. In his first practice game he landed at the bottom of a squirming mass of players, and when they were disentangled it was found that the president's son had a long gash in his scalp from which blood flowed freely. The young man gamely continued the game to the end.

Willie Fitzgerald, the Brooklyn lightweight, who is training in Los Angeles, wants a match with Jimmie Gardner, who is also on the Pacific coast, and will take him on at any weight he demands and out money any way he likes.

After seeing the Nelson-Britt fight pictures, Joe Gans gave it as his opinion that Nelson had the better of the fight all the way through. This is a contrary opinion to that expressed by Britt's followers, but Gans ought to be a pretty fair judge of pace and distance inside the roped arena.

In a recent interview, Battling Nelson said: "Jimmy Britt, to my mind, is entitled to the first chance with me, and then I will take on the others as they follow in prestige and reputation. No one is going to be harmed and no one will be overlooked." Challenging the Dane is one way of getting some cheap advertising for ambitious little fellows whose managers must keep them in the sporting spotlight.

## BASKET BALL TERM.

"Toss."

The academic council overruled the dean of the lay school and Capt. Reynolds' Penn's star half back, will be allowed to play on the team. Reynolds has received permission to matriculate as a post-graduate student, a course that the dean says does not exist at the college. On the other hand, the charge is made that the dean has been accused of an embezzlement of all forms of athletics.

Prize fighters are as prodigious as prima donnas. On their way up to the top of the heap money comes easily and continuously. When they start downward, money shuns their path in a most scandalous manner. John Morrissey, who made hundreds of thousands in his time, died penniless. Yankee Sullivan didn't leave enough cash on hand to defray funeral expenses. There was 15 cents in John Chow's pockets when the undertaker came.

Billy Poole, who had garnered many dollars in his ring career, held only two of them in his dead hand. Ned O'Grady, John Guffy, and a long list of good money getters once passed to their reward without a cent to their credit. Of the pugilists now living who have made big money with their fists, how many of them have held onto the vast sums that poured through their hands? They are so few that the fingers of one hand will suffice to count them all.

Chicago is on the fight map again, and if boxing can be conducted along lines approved by Mayor Dunne, the Windy City should witness some interesting contests this winter. Mayor Dunne clings to the old-fashioned idea that prize fights should be conducted along legitimate lines; he is opposed to fake mills, plug uglies and rounders dominating the fighting game. His views will meet the approval of all lovers of honest sport.

Now that Nelson is going to side-step the fighting game for a while, the big fellows will have a chance at the center of the stage. Not in years have there been so many aspiring heavyweights anxious to do something to advance their prestige as now. Some of the big fellows include Al Kaufman, Marvin Hart, Gus Ruhlin, John White, Mike Schreck, Jack Johnson, Sam Berger and a few others. Frank Gotch passed off the stage when he was done by a fourth-rater named "Boomer" Weeks, who disposed of him in twelve rounds out in Washington.

Unofficial figures place Hahn, of New York, at the head of the American League batting list, with a percentage of .331. He has participated in 45

games, was at the bat 164 times, made 51 hits and 22 runs.

The poor defense shown by Iowa in the game with the Maroons shows that the Hawkeye coaches were not shouting "swell" without cause. The team is a disappointment and gives no promise of much improvement.

The free-for-all fight between players, coaches, police and spectators at the Columbia-Wesleyan game will do the sport immense harm. While the brutality of the Wesleyan player who deliberately jumped upon a prostrate player deserves unqualified disapproval, the act of Coach Morley in dragging the offending player behind the goal posts and assaulting him until blood spurted from his face was inexcusable. When college sport takes on the methods of the bar room it is time to send the offenders into enforced retirement for all time.

The Carlisle Indians present about as pretty team work as any of the foot ball eleven this season. With light but fleet men they have torn opposing lines to pieces, and working with the precision of well oiled machinery, fought their way to the coveted goal line.

Lovers of fairness in racing are commenting upon the displacement of Judge Murphy at Latonia. Judge Murphy punished horsemen for apparent dishonesty at the summer meeting at Latonia, and some of these men had a pull that is said to have been the cause of Murphy's retirement. When a track management refuses to uphold its judges who rule in the interest of clean sport, it is time for patrons of the game to keep their dollars in their pockets.

The division of receipts in the world's championship professional base ball series between New York and Philadelphia, which closed Saturday and was won by New York, will net the winning players \$1,142 each and the losers \$420. This is a pretty good compensation for five days' work.

LINE TO TEXICO  
IS NOW CERTAIN

PRESENT SHOPS OF PECOS VALLEY ROAD WILL ALSO BE BUILT, AND WITH THE YARDAGE, WILL COVER FORTY ACRES OF GROUND.

A special dispatch from Amarillo, Texas, dated October 13, says: There is no longer any doubt of the intention of the Santa Fe railway company to extend the Gulf lines from Brownwood to Texico, from which point the main line is now being constructed for connection with Albuquerque.

The material for the work is being hastened to Texico as well as Brownwood, and a further extension of the system from Canyon City to Lubbock, where the Gulf extension will be tapped, is assured. The present shops of the Pecos Valley lines in this city will be rebuilt, to cover with yardage, forty acres, and will give employment to 1,000 or 1,200 men. Double-header trains of steel and ties are daily coming out of Amarillo to Texico. The Pecos Valley road is to be entirely rebuilt and put into condition to carry the fast transcontinental passenger, express and freight service.

The entire line of the Fort Worth & Denver road is being relaid with seventy-five pound steel, and concrete abutments are being put in for all bridges and abutments. Hundreds of laborers are doing this work. The new steel is being laid inside the old rails and connected up, and when entire sections of track, a mile or more in length are unspiked and shoved out on the right of way, the new steel is then spiked into place without delaying traffic in any way.

The work is being done under the direct supervision of General Superintendent G. F. Cotter, formerly superintendent of the Colorado & Southern at Trinidad.

## LOUIS WACH AND MISS FARRIS MARRIED AT ROSWELL.

Louis Wach of Denver and Miss Edith Farris of Roswell were married Wednesday morning at 9 o'clock. One hundred and twenty-five invitations were issued. Dr. G. E. McLane was best man and Miss Margaret Patterson maid of honor. The bride and groom left Roswell for Denver, their future home.

FREIBURG, GERMANY, PRIZE  
PUBLIC OWNERSHIP CITY

(The United States consul at Freiburg, Germany, E. Theophilus Liefeld, has just sent in an interesting report upon the remarkable degree of municipal ownership and control of public utilities in that city. Freiburg has 70,000 inhabitants and is in the grand duchy of Baden. The features to which he calls attention are briefly as follows: Freiburg, Germany, has a population of 70,000. The city is a prize city, showing for the fiscal year of 1904-1905 a surplus of \$7,175.

Freiburg belongs in the municipal ownership of every enterprise possible. It has followed the idea for many years.

Freiburg controls:  
Electric railways,  
Gas works,  
Theater,  
Water works,  
Schools,  
Slaughter,  
Pawnshop.

These are conducted not necessarily for profit, but for the benefit of the inhabitants.

Electric lighting is the city's pride. The city has a surplus of \$7,175.

The benefit-for-the-poor fund shows a surplus of \$1,896 out of \$6,549 in receipts.

The Electric Plant.  
Besides lighting its streets, Freiburg sold \$25,324 worth of light and \$3,727 worth of power to private parties, for \$2,702 for the use of its mills, and showed a SURPLUS OF \$7,175.

THE POWER, FOR THE ELECTRIC LINES.

The street railway system showed a surplus of \$2,300.

The gas works showed a balance of over \$5,500 on the right side of the ledger.

The cemetery turned over \$13,440 to the city treasury. This included the sale of \$2,279 worth of caskets to

## Territorial Topics

## DIPPED FIVE THOUSAND SHEEP.

Joe Stern has returned to Las Vegas from the Romero sheep dip, after superintending the dipping of 5,000 head of the fleece producers. The sheep have been sold to Kansas parties and will be shipped to Wichita.

## SHERIDAN INSPECTING THE COAL MINES.

Joe E. Sheridan, United States coal mine inspector, with headquarters at Silver City, was at Hagan where he will inspect the coal mines of the New Mexico Fuel & Iron company. From Hagan he went to the mines in the vicinity of Raipa.

## UP-COUNTRY ELKS WILL BUILD HOME.

The Elks of Las Vegas are considering the building of a handsome, two-story building, the upper part of which will be fitted up as the finest Elks hall in the territory. The Santa Fe Elks have also contracted the building fever and are minded to provide a fine opera house for the capital.

## PURCHASED FAT LAMBS.

W. J. Hapney, of Alamogosa, Colo., has been in Estancia several days receiving sheep which he purchased in the valley. He received a splendid bunch of lambs from Duncan McGillivray, which were about the top notch. One of this bunch, less than six months old, weighed 140 lbs. and a little over 100 pounds. Mr. Hapney is well pleased with his purchases here.

## SHOT HIMSELF THROUGH THE HAND.

Last Friday morning at Moriarty, Jake Wooster hit the misfortune to shoot himself through the hand with a revolver. He started after a hawk, gun in hand, but slipped and fell, and sent the bullet through his left hand. He came down on an extra train to Estancia and Dr. Norris dressed the wound. He is doing as well as could be expected.

## RATTLESNAKE KILLED NEAR SANTA FE.

Vere Boyle and Charles C. Catron, of Santa Fe, while strolling along the road near Bowler, discovered a rattlesnake which they immediately proceeded to kill. When measured, the reptile was four and one-half feet long, with six rattles and a button. It put up a game fight for its life, but two against one was too many for it. This is the first rattlesnake that has been killed inside the limits of Santa Fe for a number of years.

## COLONEL AND MRS. FROST WENT TO WASHINGTON.

Colonel Frost and Mrs. Frost, Mr. and Mrs. C. T. Frost, and Elmer Marsh, after spending a day and night in the Windy City, left Chicago last Friday for Washington, D. C., and were expected to arrive at the national capital Saturday afternoon. Colonel Frost and Mr. Brown, while in Washington, will attend the sessions of the supreme council of the thirty-third degree of Ancient and Accepted Scottish Rite of Free Masonry.

## THE DOG ESCAPED, BUT HAND WOUNDED.

Last Friday night at Marsh David Sandoval, of Las Vegas, was wounding his way home, he met a dog which he thought had no business on the streets and pulled his six-shooter to dispatch the canine. The gun refused to work at the proper moment, and the man in an attempt to raise the hammer, while thus occupied, the dog exploded, the bullet passing through the fleshy part of his left hand, tearing out a large chunk. Dr. Desmarais was immediately called to dress the wound. He found that while no bones were broken, the wound is an exceedingly nasty one, and will incapacitate the marshal for several days.

## AN OBEDIENT BANTAM PET ROSWELL ROOSTER.

Little Miss Gertrude Joyner, daughter of Mr. W. T. Joyner, has a pet bantam rooster. While it might be a easy thing to make a pet of a chicken, it is something that is not often done, to the extent that this little girl has done. Miss Gertrude's pet bantam was secured when it was well up in age,

for a fowl, but she has taught him to obey her in a ringing, "fence, or a certain spot in the yard, until she returns, and the bantam will mind her, and remain for a period of five or ten minutes at least, waiting for his mistress to come back and watching for the carcasses he knows she will give him. He will mind everything she tells him, so far as he is able, and will crow at her command, showing that he understands her perfectly. It's certainly a remarkable pet.

## SANTA FE ELKS TO BUILD OPERA HOUSE.

A meeting of the corporation of Santa Fe Elks, No. 469, B. P. O. Elks, has been called for Wednesday night, October 18, at 7:30 p. m. in the lodge rooms, Santa Fe, at which time the subject of building the opera house will be fully discussed and in all probability settled.

## DECEMBER AND MAY ONCE MORE FAILED TO AGREE.

John M. Archer was 62 years of age at the time of his marriage in August, 1903, at Clayton, N. M., and his bride was 22, according to the testimony given by Mr. Archer in the county court at Clayton, in a suit for divorce from Pearl Archer. The aged plaintiff stated that in January following his marriage his wife deserted him, and he was granted a divorce.

## NEW MEXICO CHEATED OUT OF MINING STANDING.

Director of the Mint Roberts gives the total production of gold in New Mexico for the year 1904 at \$38,900. Why, the Last Chance mine, in the Mogollon district, produced not far from that amount in gold and silver bullion every month. The natives of Pinos Altos alone produce nearly as much that amount every year, in placer gold, washed from the sand in the gulches. The fact of the matter is that New Mexico is cheated out of rightful production, every year, by Texas and Colorado, where most of the ore is sent for treatment—Silver City Enterprise.

## SANTA FE PEOPLE TO BE MARRIED IN ARIZONA.

Invitations have been received in Santa Fe for the marriage of Pedro H. Samozas to Miss Carmelita Montano, at Flagstaff, Arizona, Monday next. The ceremony will be performed by Bishop Grauberg, of that diocese, at 5 o'clock in the afternoon, at the Catholic church. Mr. Samozas was formerly a resident of the Capital City and has many friends there. Miss Montano is also well known in Santa Fe, having visited in that city a number of times.

## WHERE SUNNYSIDE IS, AND WHY IT'S THERE.

Sunnyside is situated on the east bank of the beautiful Pecos river, nine miles northeast of old Fort Sumner, in Guadalupe county, New Mexico, says the Sun. The incentive for the creation of a town at this point was caused mainly by the building of the Belen cut off branch of the Santa Fe railroad. Here the railroad crosses the Pecos river, and here it is that the railroad company will build the big iron bridge, to cost not less than half a million dollars. Here it is that the topography, both on the surface and below, changes. The east side of the Pecos, with its rich valleys, and beautiful, verdant prairies, is noted in Spanish history as the land of "Pura agua" (pure water), while on the west bank the conditions are not so favorable. The town of Sunnyside derived its name from the noted Sunnyside springs, located two miles northeast of town.

The Graphic says: J. E. Dennis, for the past year Santa Fe ticket agent at the Denning station, left for Albuquerque, and is succeeded by John Powers of Kansas City. Mr. Dennis has made many friends here, whose best wish will follow him to his new field of labor.

## POUND SALE.

One bay pony, 6 or 7 years old, white face, also left hind foot white; branded on left hip. Will be sold at the city pound Wednesday morning, October 18, at 10 o'clock.

THOMAS McMILLIN, City Marshal.
